Teachers

Getting started with mySecondTeacher

mySecondTeacher (MST) is a learning platform used globally by schools, teachers and students (including homeschoolers). On MST, you can create and conduct live online text or video classes, give out, collect, and grade assignments, gain access to interactive videos and eTextbooks, and even generate Test Papers and Marking Schemes from our question banks! Additionally, we provide you with deep insights to your student learning difficulties so that you can intervene in their learning at the right time.

There's lots to do, but it's really easy to do them!
This manual will get you started 😊

What students say about mySecondTeacher

Nao from Thailand

Ever since I started watching the videos, I start to understand more. It's like everything now makes sense. I know it helped me cuz I did Atomic Physics test last week and my score improved so much compared to previously.

Hashim from Saudi Arabia

Yeaaaahhhh! I mean it's amazing.... the diagnostic report.

Caitlyn from Indonesia

This chat thing! It's so convenient to be able to ask someone all my doubts.

Bernice from Malaysia

It's fun! I didn't know something like this existed or I would have started using it long time ago!

Tony from Singapore

The interactive videos cover the entire syllabus and even comes with loads of questions. So I don't need to refer to the textbook and workbook anymore.

Lydia from Indonesia

Your videos are really helpful! Thanks for helping me and my friends achieve higher grades!

FACT

Official IGCSE Cambridge Results (2019 June Series):

70% of ALL our students scored a distinction for IGCSE Physics.

The average grade of ALL our students is 7.5, which is between A and B.

What Types of Materials Are Out There?

Look at the ball. Think about what it is made of. How does it feel? How does it behave? What are its properties?

All objects around us are made of materials. There are many different types of materials. Let's look at some common materials around us.

Look around your classroom in the room and choose two objects. Write and draw notes of all the properties of the objects around you. (All the properties)

What Will I Learn?

- I will...
- Know that every material has specific properties.
- Understand why materials are chosen for specific purposes on the basis of their properties.
- Be able to select materials according to their properties.
