

Feature Updates

April 15, 2024

Feature Release

Enhanced Assignment Report Including Inactive Student's Assignment

After the most recent update, assignments submitted by students before their accounts were set to inactive are now included in the assignment report and available for download. This update enhances the efficiency and effectiveness of managing student assignments and promotes fairness in the evaluation process.

Feature Release

Streamlined Access to Upcoming Sessions and Assignments

Following the latest update, teachers can now access a comprehensive view of all upcoming sessions and assignments with deadlines that have not yet passed. This update empowers teachers to be more organized, proactive, and effective in their teaching practices.
