

Feature Updates October, 2024

"Contact User Care" button added to the login page

A "Contact User Care" button has been added to the login page on both the Android and iOS apps. This feature allows users to easily reach out for assistance directly from the login screen, making support more accessible.

Enhanced Assignment Features Now Accessible on Mobile Apps

In the latest update, teachers can now assign various types of assignments directly through both Android and iOS apps. These include rich-text assignments, IVY assignments, competency test papers, and custom test papers. Students can also easily submit all these assignment types through mobile apps, making the assignment process more convenient and accessible for both teachers and students.

Check Attachments with a Quick Preview Before Download

Now, through the mobile application, you can preview all attachments uploaded on the platform before downloading them. You can preview the attachments attached to the assignment, teacher's content, and announcement without having to download them.

Upcoming sessions and assignments

Teachers and students can now view all the upcoming sessions and assignments through Android and iOS apps.
